

ARAV WALIA FILMS
MUSIC VIDEO PRODUCTION

IT PROJECT *SYNOPSIS*

PROJECT – WEBSITE DEVELOPMENT

WEBSITE NAME – *Arav Walia Films*

Submitted by – Tushar Walia, Ritik Dewan, Hritik Tyagi
B.Voc – 2nd year(4th semester)

-OBJECTIVE-

On this Synopsis i will be analysing a Dynamic website about the My Profesional Work Music Videos And Filming Zone., where i will be criticizing following the website structure and then explain some of the recommendations in order to improve the accessibility, navigation and how to make it more attractive to visitors. This analyse will be divided in two parts. The first part as explained will have the responsibility to criticise and redevelop the website. Here the user will have the opportunity of explain the errors and what to change in order to make it look better. The second part has the purpose of rebuild, or change the structure and layout of the web site. Here the user will need to make the reasons showed before work in a static prototype demonstration.

Mainly The Purpose of this Website is to Provide the Free Presets / Plugin (which is totally Created by Me) to the freelancers, Newbies .Also it's Gonna be a platform Where people can Book the shoot from it As it is a Video Production website. Also We have a plan to Join this with our illustration section and that's also a website in it's own Calledl DIGITAL ARTERY.
